

Clickable.bio for Instagram

Available on Social Marketing Pro 

Turn social fans into paying customers!

Clickable.bio transforms your Instagram posts into a shoppable gallery of images, turning followers to customers, available for free on Social Marketing Pro.

Make sales through Instagram

Create a post promoting a product and immediately drive your followers to your online store's product page where they can quickly make the purchase.

Drive Instagram followers to your website

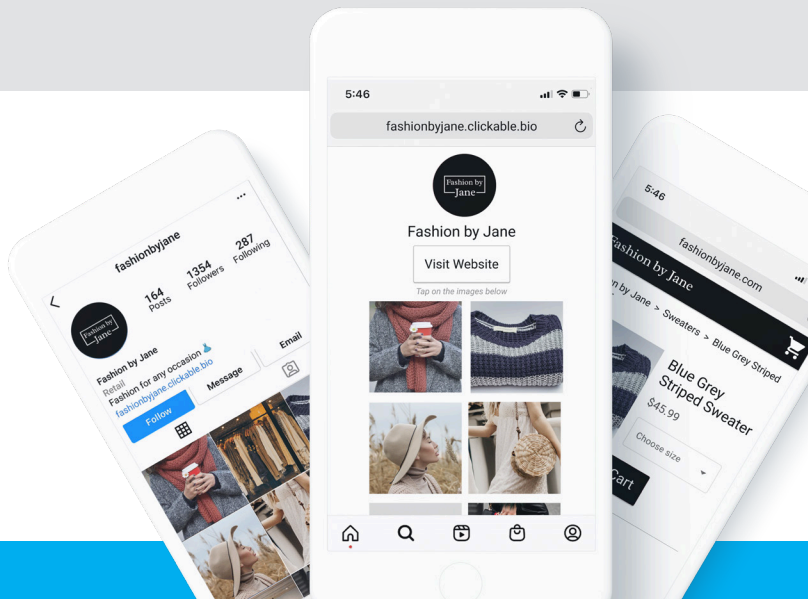

Clickable.bio is not just for selling products. Drive followers to your website to book appointments, fill out a form, subscribe to your newsletter, or read a blog.

Shorten the buying process

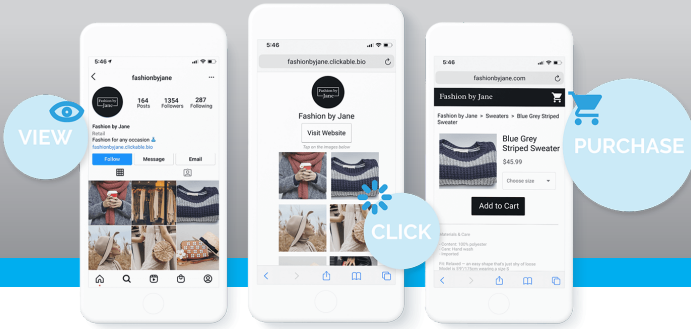

Instagram is distracting. By giving your followers your Clickable.bio link, they can immediately fulfill important transactions on your website without having to leave your Instagram page.

Drive traffic from your Instagram gallery to your online store or website so you can capture more qualified leads, convert these leads to customers, and grow your business.

Clickable.bio for Instagram

Available on Social Marketing Pro 

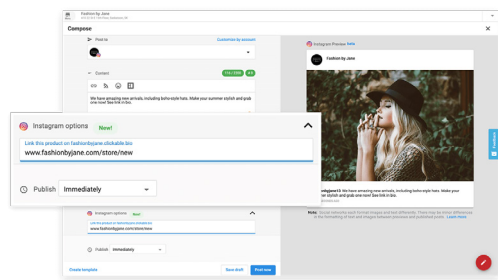

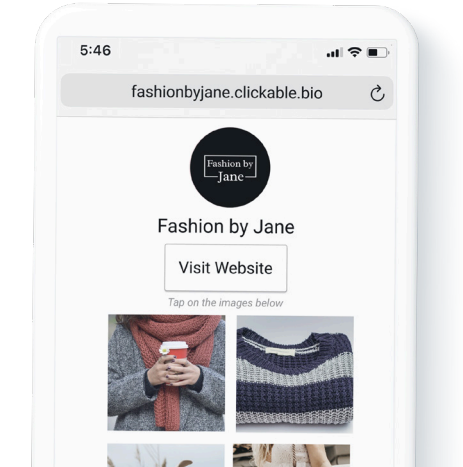

Set up is a breeze

Create your own customized Clickable.bio page in Social Marketing through just three easy steps.

Your own branded Clickable.bio page

Set a custom URL for your Clickable.bio page, add your business name and a logo to match it to your branding. This custom URL goes in your Instagram bio so your followers can access your page!

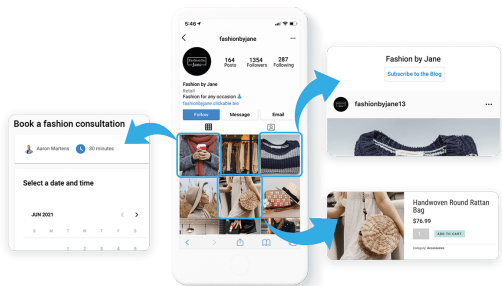

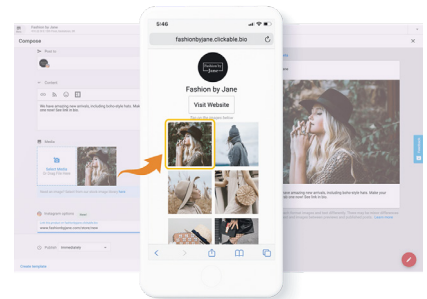

Easy posting

Through the Social Marketing Composer, you can add a website link (product pages, blogs, articles, booking links, etc.) to every new Instagram post. Don't forget to say "See link in bio"!

All automatically updated

No website coding required. Your Clickable.bio page will be updated every time you publish an Instagram post with a link.

Funnel your followers

Without ever having to leave the app, your followers can purchase from your online store or complete any transaction you want, such as booking an appointment, registering for an event, or subscribing to a newsletter.
